Nikko AM NZ

Fixed Income Team

The Domestic Fixed Income team is led by Fergus McDonald (Head of Bonds and Currency) who is responsible for investment strategy, performance and compliance of Bonds, Cash and Currency mandates. Fergus has been actively involved in the financial markets since 1981. Ian Bellew, promoted to Fixed Income Manager in June 2012, joined the team in 1998 as the Cash Portfolio Manager. Ian is responsible for the implementation of investment strategy and day to day management of the fixed income and option portfolios. Matthew Johnson, Fixed Income Manager, returned to Nikko AM NZ (after 6 years overseas) in October 2018.

The Fixed Income team is responsible for managing Nikko AM NZ's allocation to NZ Bonds, Cash and Options.

NZ Bonds

Nikko AM NZ's target for its NZ Bond Fund is to exceed the Bloomberg NZBond Composite 0+ Yr Index by 0.6% p.a. before fees and taxes over a rolling three-year period. This benchmark is effective from 1 January 2019, replacing the former NZBond Govt 0+ Yr Index benchmark. Authorised investments are cash, deposits and debt securities issued or guaranteed by any NZ registered bank, or equivalent overseas institution, SOE, NZ and foreign Government, NZ local authority, NZ and overseas corporates issuing NZ dollar debt and derivative instruments.

A minimum of 25% of the Fund is to be invested in securities issued or guaranteed by the NZ Government or securities accepted by the RBNZ's Overnight Reverse Repo Facility.

A minimum of 50% of the fund is restricted to issuers with a credit rating equal to or higher than NZ Government.

Cash

Nikko AM NZ's target for its cash fund is to exceed the Bloomberg NZBond Bank Bill Index by 0.20% p.a. before fees and taxes over a rolling three-year period.

Authorised investments are cash, deposits and debt securities with an interest rate exposure of up to 365

days, issued or guaranteed by any NZ registered bank, SOE, NZ Government, NZ local authority and NZ and overseas corporate.

Securities issued by corporates and registered banks must have minimum credit rating of A1 short-term and A long term (Standard and Poors). Derivative counter parties must have A or better credit rating and all derivative exposure shall be covered by cash or physical holdings.

Options

The investment objective of the Nikko AM Wholesale Option Fund is a gross return of the Bloomberg NZBond Bank Bill Index plus 4% p.a. over a rolling three-year period before fees. Authorised investments in the Option Fund include bank bills and floating rate notes (denominated to NZD, AUD, USD, GBP, and Euro), bonds issued by New Zealand, Australian, US, and UK governments and sovereign debt of Eurozone nations (with minimum rating of AA-), interest rates options (call and put), futures on Sydney (SFE) and Chicago Exchanges (CBOT and CME), exchange traded, forward foreign exchange contracts (entered into to hedge currency exposure), foreign investment fund vehicles that pursue similar option strategies and managed funds in any part of the world. Over the counter options can only be transacted with Nikko global approved parties.

Global Managers

Nikko AM selects global managers to gain access to international assets (global equities, global bonds and alternative investments), as well as providing specific regional exposure. The Nikko AM NZ investment committee is responsible for the selection and monitoring of offshore managers.

Nikko AM NZ utilise a multi-manager global equity strategy managed by a specialist team based in Sydney and Singapore. Investment personnel from Nikko AM Australia, Singapore and New Zealand are responsible for the ongoing selection, monitoring and review of all underlying investment managers.

External Investment Managers - Nikko AM

Global Equity

As at 30 June 2020, Nikko AM NZ utilises three external managers for its global equity multi-manager strategy:

Manager/Asset Class	Allocation	Range
Royal London Asset Management	32.36%	26 - 42%
Davis Selected Advisors LP*	0.01%	26 - 42%
WCM Investment Management	41.85%	26 - 42%
State Street Transition account*	25.55%	
Cash and Derivatives	0.23%	

*Davis was removed, and NAM Europe appointed. The portfolio was in transition over the June month end.

Nikko AM NZ's target is to exceed the Morgan Stanley Capital International All Countries World Index (MSCI ACWI), with net dividends reinvested (either NZD 139% hedged or unhedged as appropriate) by 3% p.a. before fees and taxes over a rolling three-year period.

Nikko AM's Portfolio Solutions Team, based in Singapore and Sydney has a top-down asset allocation approach to enable active management.

NAM Europe is Nikko AM's Global Equity team that is based in Edinburgh, Scotland. With over 20 years average experience, team members have dual roles of portfolio manager and analyst responsibility and work together on an equal basis to construct client portfolios. This flat investment structure and investment process has been in place since the team's foundation.

WCM Investment Management (WCM) is a California-based boutique firm founded in 1976. The WCM investment philosophy is to follow a fundamental stock selection of individual companies to build a high conviction portfolio for their global growth strategy. Factors considered include unique services, company culture as well as valuation.

One of the UK's leading fund management companies that manages over £115 billion on behalf of its clients. Royal London is a value based manager and believe their competitive edge is their proven methodology to exploit market inefficiencies. The investment process centres around fundamental valuation with the team performing qualitative and quantitative analysis to identify investment opportunities. Investment is prohibited in any security that conducts activities listed on the schedule to the Cluster Munitions Prohibition Act 2009 or tobacco manufacturers

External Investment Managers - Nikko AM NZ

Asset Management

Nikko AM NZ utilises Goldman Sachs Asset Management Australia Pty Limited (GSAM) for its global fixed income asset exposure. GSAM is one of the world's largest asset managers with USD\$1.38 trillion in assets under supervision. GSAM's Global Fixed Income and Currency Team manages approximately AUD\$450 billion of global Fixed Income assets and has a breadth of investment management experience with over 250 investment professionals (as at 30 June 2020). The globally integrated team has independent strategy teams capturing value across top down (duration, cross sector, country by country) and bottom up (investment grade credit, high yield, securitised assets, government/agency and emerging market debt) strategies. The portfolio GSAM manage for Nikko AM NZ is not permitted to hold investments in any entity involved in 'controversial weapons' or tobacco manufacturers.

J.P.Morgan Asset Management

Nikko AM NZ utilises J.P. Morgan Alternative Asset Management Limited's (JPMAAM) multi-manager/multi-strategy fund, Multi-Strategy II Limited for its alternative asset exposure.

JPMAAM has been dedicated to the management of hedge fund products and solutions for nearly two decades. JPMAAM offers a broad range of products and capabilities aimed at helping investors achieve their strategic hedge fund and asset allocation objectives.

The Fund's stated investment objective is to generate capital appreciation over the long term through a diversified risk profile with relatively low volatility and a low correlation with traditional equity and Fixed Interest markets. The Fund seeks to accomplish this by allocating its assets primarily to a select group of experienced portfolio managers that invest in a variety of markets, either through investment funds or discretionary managed accounts. Portfolio managers are selected on the basis of factors including above-average investment histories and/or recognisable prospects, an identifiable track record and a substantial personal investment in the investment program.

External Investment Managers - BMO Global Asset Management

Asteron Life also invests directly BMO Global Asset Management (BMO GAM) unit trusts for its regional equity allocation to European and North American markets. The BMO GAM unit trusts previously fell under F&C Asset Management (F&C AM), until F&C AM were acquired by BMO GAM, and ultimately the BMO Financial Group in 2014.

The Benchmarks are the MSCI North American Index for North American shares and the MSCI Europe Index for European shares. The target is to exceed the Benchmark Index with net dividends reinvested (25% hedged back to NZD) by 2% p.a. before fees over a rolling three-year period.

Authorised Investments include direct holdings in shares listed on major international stock exchanges or into pooled overseas share products offered by recognised fund management organisations.

For its North American allocation, the BMO GAM unit trust uses strategies with low turnover, relying on the proprietary alpha model and portfolio construction to create an active portfolio explicitly excluding common factor effects e.g. momentum. For its European allocation, the BMO GAM unit trust looks for growth opportunities within Europe's stock markets, avoiding biases to any investment style.

BMO GAM is a diversified investment management group with a history of innovation that can be traced back to 1817. They have a strong heritage in sustainability with a comprehensive suite of responsible investment funds. BMO GAM also have a Governance and Sustainable Investment team who have integrated environmental, social and governance (ESG) factors into a wide range of their investment processes.

Partnering with BMO Global Asset Management has allowed the combination of key strengths of both businesses. BMO Financial Group (TSX, NYSE: BMO) is a diversified financial services organization with total assets of CAN\$710 billion and more than 45,000 employees. BMO Global Asset Management has more than US\$273 billion assets under management (at 31 December 2019) globally, making it one of the largest asset managers worldwide.

Performance Summary

FundSource star ratings are a comparison between funds investing in assets with similar characteristics using a return measure that has been adjusted for risk. The star ratings are purely quantitative and use the most recent 36 months of performance data. The funds in a sector are ranked according to their risk-adjusted return. The top and bottom 15% earn 5 stars and 1 star respectively, the next top and bottom 20% earn 4 stars and 2 stars, and the middle 30% earn 3 stars. In this way, the variability of performance return is considered. So where two funds in the same sector earn similar returns, but one is more volatile than the other, the more volatile fund is likely to get a lower star rating than the other. Alternatively, where two funds have similar volatility but one earns higher returns than the other, the fund with the higher return is likely to get a higher star rating.

FundSource quantitative data is supplied by Financial Express (FE) Australia. FE Australia manage a database of over 950 funds that are available to New Zealand Investors. Funds are grouped into three universes; NZ Managed Investments, NZ KiwiSaver and NZ Superannuation. These funds are then further grouped into sectors based on asset allocation and investment mandates so fund performance within these sectors can be compared like for like. All of the Asteron funds are constituents in the New Zealand Superannuation universe. Sector averages for this universe are displayed in the tables below. Sector averages for the New Zealand Managed Investments universe have also been added as a further comparison for Asteron fund performance. Asteron Life's own performance benchmarks have been used for the single-sector funds.

FundSource calculates performances with all figures rounded to four decimal places on an 'Exit to Exit' price basis, assuming investors are long term investors, with all distributions reinvested at ex-distribution prices. FundSource statistics are structured so similar type funds are grouped together with an appropriate asset class index.

Performance returns for periods of less than one year are non-annualised. Returns for periods of one year or more are shown as compound annual rates of return.

Returns for "Non-PIE" funds are calculated after tax and investment management fees have been deducted but before any policy charges or other fees which may apply.

Returns for PIEs are calculated after management fees but before tax. Net returns for Superplan and Retirement Savings Plan before 1 June 2008 have been grossed up to an equivalent pre-tax figure. Tax will be deducted from each investor's account at their Notified Investor Rate (NIR).

Returns for the indices are calculated gross of tax.

Returns shown are historical and not necessarily an indication of future performance.

Note: Investment entities with less than a three year history have no rating. Funds in sectors with less than 10 constituents are not rated. Star ratings do not include any qualitative analysis. While it is helpful to consider how volatile a fund has been in the past, it is also important to consider more forward looking qualitative elements such as analysis of the portfolio manager and the process they use in managing a fund.
