There are no limits to the markets which may be selected.

Total value of the fund	\$5,959,122.27
Number of investors	481
The date the fund started	November 2000

## What are the risks of investing?

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [sorted.org.nz/tools/investor-kickstarter](http://sorted.org.nz/tools/investor-kickstarter). Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

## Specific investment risks

### Fund of funds risk

The Fund currently invests in Nikko Asset Management New Zealand (Nikko) managed funds. The performance of the Fund's investment in a Nikko managed fund may be affected by unexpected changes in market conditions.

This may impact on investors' returns or ability to withdraw from the Fund. To reduce this risk, the Fund's Investment Manager, Suncorp Corporate Services Pty Ltd (SCS), monitors and reviews the investment performance of the Nikko managed funds against targets and benchmarks on a monthly basis.

#### Underlying fund investment manager selection risk

The Fund's investment in a Nikko managed fund may be subject to the risk that a fund manager selected by Nikko underperforms, resulting in lower returns than the relevant market indices or investment objectives. To reduce this risk, Nikko have a thorough manager research and monitoring process and diversify across a number of managers. From a strategic perspective SCS reviews the performance of Nikko at least every 2 years. Also, SCS have quarterly meetings with Nikko or more frequently where changes in the business or market environment necessitates.

#### Service provider risk

There is a risk that a service provider involved in the investment management and administration of the Fund may breach or fail to perform its obligations. This could impact the operations of the Scheme including the ability to process withdrawals or adversely affect investors' return on investment. From a strategic perspective to reduce this risk, SCS and the Suncorp New Zealand (SNZ) Investment Sub-Committee actively monitor and review the performance of all service providers to ensure compliance with contractual arrangements at a minimum every 2 years. The SNZ Finance team have monthly and quarterly meetings with service providers or more frequently where changes in the business or market environment necessitates.

## How has the fund performed?

Fund Performance	Average over past five years	Past year (to 31 March 2018)
Annual return (after deductions for charges and tax)	8.50%	10.06%
Annual return (after deductions for charges but before tax)	9.46%	10.84%
Market index annual return (reflects no deduction for charges and tax)	2.75%	1.98%

### Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years up to 31 March 2018.

The graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or taxes are deducted.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the Asteron Superplan Aggressive Fund are charged fund charges. In the year to 31 March 2018, these were:

	% of net asset value
<b>Total fund charges</b>	<b>2.21%</b>
Which are made up of:	
<b>Total management and administration charges</b>	<b>2.21%</b>
Including:	
Manager's basic fee	0.97% <sup>1</sup>
Other management and administration charges	1.24% <sup>2</sup>
<b>Total performance-based fees</b>	<b>0.00%</b>

<b>Other charges</b>	<b>Dollar amount per investor</b>
Member fees	\$30

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Summary of Individual Action Fees document on the Scheme's offer register at [companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose) for more information about those fees.

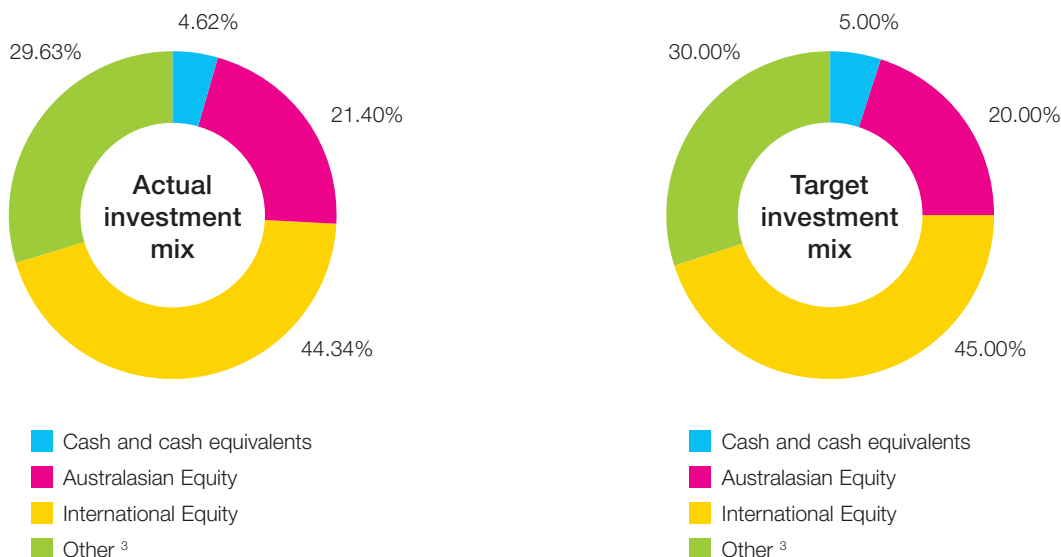

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

David had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, David received a return after fund charges were deducted of \$1,006 (that is 10.06% of his initial \$10,000). David also paid other charges of \$30. This gives David a total return after tax of \$976 for the year.

## Further information

You can also obtain this information and some additional information from the offer register at [companiesoffice.govt.nz/disclose](http://companiesoffice.govt.nz/disclose).

## Notes

1. The Manager's basic fees is net of investment fee rebates and management fee discounts paid to investors through an increase in their individual unit holdings.

There has been a significant decrease in the Manager's basic fee when compared to the previous year. The Manager's basic fee for 2018 is 0.97% in contrast to 1.55% for 2017. The difference is largely due to an error in the calculation of management fee rebates following the transition to the PIE tax regime. The error has resulted in a +0.56% correction to members' accounts for the 12 months to 31 March 2018, crediting back the value of understated management fee rebates and any investment returns that members would have received if the error had not occurred. The Manager's basic fee for the next 12 months is likely to return to a similar level to what was experienced in 2017.

2. Other management and administration charges includes allocation of fees to the Fund and the total expense ratio of the Fund's investment in an underlying managed fund.
3. Includes the investment in the Nikko AM Wholesale Option and Multi-Strategy Funds.
4. Calculated excluding cash and cash equivalents held for operational purposes.
