The date the fund started	November 1994

What are the risks of investing?

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way. To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at sorted.org.nz/tools/investor-kickstarter. Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the 5 year period to 31 March 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

Specific investment risks

Fund of funds risk

The Fund currently invests in Nikko Asset Management New Zealand (Nikko) managed funds. The performance of the Fund's investment in a Nikko managed fund may be affected by unexpected changes in market

conditions. This may impact on investors’ returns or ability to withdraw from the Fund. To reduce this risk, the Fund’s Investment Manager, Suncorp Corporate Services Pty Ltd (SCS), monitors and reviews the investment performance of the Nikko managed funds against targets and benchmarks on a monthly basis.

Underlying fund investment manager selection risk

The Fund’s investment in a Nikko managed fund may be subject to the risk that a fund manager selected by Nikko underperforms, resulting in lower returns than the relevant market indices or investment objectives. To reduce this risk, Nikko have a thorough manager research and monitoring process and diversify across a number of managers. From a strategic perspective SCS reviews the performance of Nikko at least every 2 years. Also, SCS have quarterly meetings with Nikko or more frequently where changes in the business or market environment necessitates.

Service provider risk

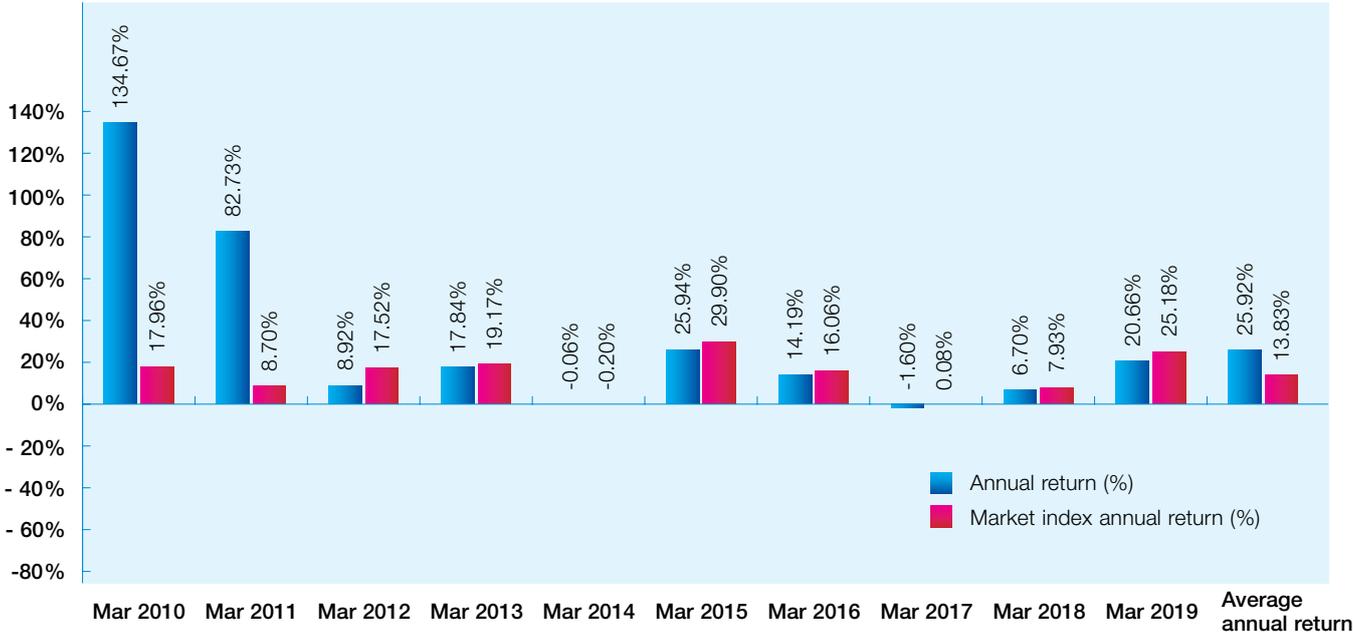

There is a risk that a service provider involved in the investment management and administration of the Fund may breach or fail to perform its obligations. This could impact the operations of the Scheme including the ability to process withdrawals or adversely affect investors’ return on investment. From a strategic perspective to reduce this risk, SCS and the Suncorp New Zealand (SNZ) Investment Sub-Committee actively monitor and review the performance of all service providers to ensure compliance with contractual arrangements at a minimum every 2 years. SCS and the SNZ Capital & Investments team have monthly and/or quarterly meetings with service providers or more frequently where changes in the business or market environment necessitates.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years up to 31 March 2019.

The graph shows fund returns after the deduction of fees and tax, however, the market index returns are shown before any fees or taxes are deducted.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Asteron Retirement Savings Plan NZ Property Fund are charged fund charges. In the year to 31 March 2019, these were:

	% of net asset value
Total fund charges	1.11%
Which are made up of:	
Total management and administration charges	1.11%
Including:	
Manager's basic fee	1.11% ¹
Other management and administration charges	0.00% ²
Total performance-based fees	0.00%
<hr/>	
	Dollar amount per investor
Other charges	
Member fees	\$30.00

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the Summary of Individual Action Fees document on the Scheme's register entry at companiesoffice.govt.nz/disclose for more information about those fees.

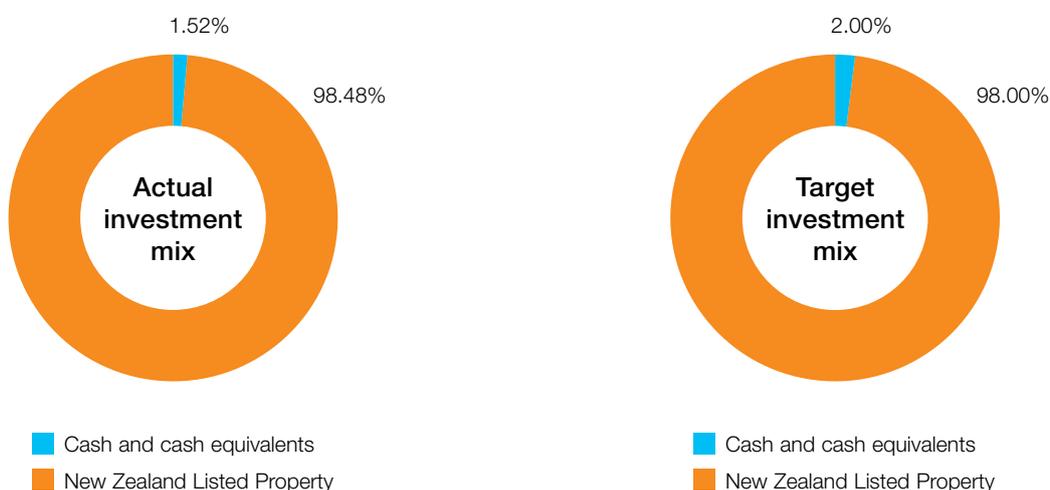

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

David had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, David received a return after fund charges were deducted of \$2066 (that is 20.66% of his initial \$10,000). David also paid other charges of \$30. This gives David a total return after tax of \$2036 for the year.
